Statement from BAD in support of the Patient Support Groups:

The BAD's relationship with Patient Support Groups is very important to the work we do, as they provide patients with invaluable support and information.

The BAD is a charity whose charitable objects are the practice, teaching, training and research of Dermatology. It works with the Department of Health, patient bodies and commissioners across the UK, advising on best practice and the provision of dermatology services across all service settings. It is funded by the activities of its members.
